

Warranty

Brunner & Lay tools are guaranteed against defects in raw material and manufacture. No other warranty is implied or expressed. The Company's liability in respect of any warranty claims is limited to replacement and does not extend to any other expenditure incurred or to any consequential damage. Warranty claims are subject to immediate notification of any problems and return of the goods to Brunner & Lay under their Returned Goods Policy. See our Warranty Guide on page 58 and 59.

Tool Selection

Correct selection of tools is the first step in obtaining maximum life from the product.

	<p>Conical Point</p> <p>For general demolition work where penetrative breaking is required.</p>		<p>Wide Chisel</p> <p>For increased productivity in softer materials.</p>
	<p>Pyramid Point</p> <p>For use where increased break-out forces are required.</p>		<p>Blunt</p> <p>For impact breaking, secondary breaking and also scaling in mines and tunnels..</p>
	<p>X Type Point</p> <p>For use in soft or high dust operations.</p>		<p>Super Blunt</p> <p>Blunt with increased diameter at working end to give increased life and wear resistance.</p>
	<p>Chisel</p> <p>Same as points, but also where a cutting action is required, eg. benching and trenching.</p>		<p>Driving Tool</p> <p>For driving in posts, pipes etc.</p>
	<p>Grooved Chisel</p> <p>For use in soft or high dust applications.</p>		<p>Detachable Shanks and Pads</p> <p>For compacting loose ground.</p>
